Where Are the TOMBS OF THE KINGS?

This infographic shows Jerusalem in the fifth century B.C.E., the time period of Ezra and Nehemiah. The city had been destroyed by the Babylonians in 586 B.C.E. The Jews returned from exile in the late sixth century and, under the leadership of Zerubbabel and Joshua, laid the foundations of the altar and the temple. During the time of Ezra and Nehemiah, the wall around Jerusalem was reconstructed. The construction of this wall, including the situation of specific gates and even the location of the "sepulchre of David," is recorded in detail in Nehemiah 3.

“With you is wisdom, who knows your works and was present when you made the world” (9:9). “She is an initiate in the knowledge of God and an associate in His works” (8:4). “She reaches mightily from one end of the earth to the other, and she orders all things well” (8:1). “For wisdom is more mobile than any motion: because of her pureness she pervades and penetrates all things” (7:24). “She is a reflection of eternal light, a spotless mirror of the working of God, and an image of His goodness” (7:26). “She is more beautiful than the sun, and excels every constellation of the stars. Compared with the light, she is found to be superior” (7:29).
